CARNATIONS

Fine California Stock

SOUTHERN CALIFORNIA
CARNATION GROWER

Several new seedlings are listed in this folder but, as always, only varieties which have proved to be good carnations are offered to you. Many more, not listed, are available. Write for those you want.

Because supplies of some varieties are limited, it is to your advantage to place your orders as early as possible. Varieties sold out will be replaced with a similar variety of equal or higher value—at no extra cost to you. Should you instruct us otherwise, your order will be rooted for you and shipped later.

Terms:

Please include cash, money order or check with your order, adding 2½% sales tax on all California orders. Checks and money orders should be made payable to Southern California Carnation Grower. Should we be unable to make immediate shipment, you are notified when we receive your order.

All plants are guaranteed to be satisfactory on arrival. Any plants that arrive in unsatisfactory condition must be returned AT ONCE—at our expense—since claims cannot be made after plants have been in customer's hands more than one week. No replacement is possible of plants that fail, since such failure is not under our control.

Non-Warranty: Southern California Carnation Grower gives no warranty, express or implied, as to description, quality or productiveness.
